Summary

Full-Stack Developer passionate about AI, ML, and cutting-edge tech, specializing in dynamic web applications and user-centric designs.

Education

University of Ibadan

Computer Science • Ibadan, Oyo State

Skills

JavaScript, Python, CSS, HTML, Django, Git, GitHub, MySQL, PostgreSQL

Experience

Experienced Full-Stack Developer with a strong background in building and optimizing dynamic, high-performance web applications. Skilled in both front-end and back-end technologies.

Front-End Development:

- Expert in HTML, CSS, JavaScript, and modern front-end frameworks such as React
- Adept at creating responsive and user-friendly interfaces that ensure a seamless user experience across devices.

Back-End Development:

- Proficient in server-side languages and frameworks including Python and Django
- Knowledgeable in database management systems like MySQL, PostgreSQL
- Full-Stack Integration:

- Strong ability to integrate front-end and back-end components into cohesive applications.

Client Collaboration:

- Excellent communication skills to understand and translate client requirements into technical specifications.
- Capable of managing multiple projects simultaneously, maintaining clear timelines and delivering high-quality results.
- Proactive in providing regular updates, seeking feedback, and making necessary adjustments to meet client expectations.

Notable Projects:

- **Social Networking App:** Built a social networking app with real-time chat functionality, user profiles, and a content sharing system
